The Guardian[®] Drain Lock is designed specifically for floor sinks and floor drains to protect unwanted debris from clogging and backing up your plumbing lines, which leads to costly expenditures.

With a simple turn of a socket wrench, the Guardian Drain-Lock expands, locking the drain strainer. Only a special security bit socket will open it again, ensuring your drain lines are secure.

Guardian Floor Drain D-Locks

Guardian Drain-Lock Hybrid

Benefits at a glance...

- Reduce or eliminate clogged drains and need for jetting drains
- Reduce risk of grease trap or plumbing violations
- Reduce solid waste entering plumbing system
- Reduce drain line and P-Trap replacement
- Reduce risk of insurance claims due to flooded floors
- Fits perfect with the Flexible Drain Sock w/ metal ring and Strainer Baskets for triple floor sink drain protection!

NEW! Now available with fine mesh for maximum drain protection!
